

Abstract of the disclosure

5 The present invention relates to a herbicidal composition comprising

A) one or more compounds of the formula (I)

10 where V is an unsubstituted or substituted heterocyclyl radical or a radical
-CR^α = CR^β R^{β1}, where R^α and R^β are identical or different carbon-containing
C₁-C₄₀ radicals which together can form an unsubstituted or substituted ring,
and R^{β1} is OH or a carbon-containing C₁-C₄₀ radical, and Z is an
15 unsubstituted or substituted aryl radical, and

B) one or more surfactants comprising, as structural element, at least 10,
alkylene oxide units.
